github.com/dimaduce

Project manager and Heeeper co-founder with experience in software delivery, business operations and remote team coordination. My work covers requirements, planning, risk management and communication between clients, designers and developers.

EXPERIENCE

Heeeper

Feb 2023 - Present

CEO; CEO & Co-founder since June 2023

Lead a remote UX/UI design and development team. Coordinate client work across discovery, design and development; manage project planning, resource allocation and delivery workflows for SaaS and technology products.

D&D

Sep 2022 - Feb 2023

Project Manager

Project management, team leadership and Agile methodologies.

Bucha.social

Mar 2022 - May 2022

Project Manager | Part-time

Initiated the project, gathered requirements, identified stakeholders and planned risks. Built the roadmap, coordinated tasks and reported delivery progress to the client.

KoDeem

Sep 2020 - Feb 2022

Project Manager

Defined requirements and project artifacts: user stories, UML, work breakdown structures, flows and wireframes. Managed market analysis, roadmaps, risk planning and client reporting.

Auspex UA LLC

Oct 2018 - May 2020

Project Manager

Managed project initiation, documentation, requirements, stakeholder identification, objectives, task planning and client reporting.

2Cups

Sep 2017 - Aug 2018

Retail Executive Assistant

Coordinated suppliers and inventory; supported operating budgets, internal procedures and process automation across the cafe network.

SKILLS & TOOLS

Project planning; requirements gathering; stakeholder communication; risk management; team coordination; Agile methodologies. Tools: Jira, ClickUp, Hubstaff.

AI tools: proficiency in Claude Code, ChatGPT, Grok Bot and Hermes for project and operational work.
